with chive dipping sauce

---

### A Note from the Chef

Here at Grill 48 we have adapted a number of our dishes for guests following a healthy eating plan. We do however leave it up to our guests to decide how healthy they would like to be.

- During the cooking process of our healthy dishes we have removed all butter and oil and replaced it with fry light.
- Sandwiches, burgers and rolls have been substituted with wholemeal versions. Please note these may be smaller in size than our regular versions
- Mayonnaise has been substituted for light mayonnaise
- Our chips are 100% fat free, they are cooked in our oven and although take slightly longer to cook they are worth the wait
- Our beef burgers and buffalo burgers are made with less than 5% fat and are chicken burgers are freshly grilled breast of chicken with no oil
- Salads do not come with our house dressing however we do have balsamic vinegar available on request

We believe we have made some simple changes to our menu to accommodate our guests needs, if however you have any queries please do not hesitate to ask a member of our team
